FLA Token

FLA is a revolutionary digital token designed specifically for the vibrant world of online gaming. As a holder of FLA, you're not just owning a piece of cryptocurrency; you're unlocking a universe of exclusive gaming experiences.

Legacy and new game creators: Give a new life to their games by minting NFT versions of the game. Using NFT Portal, extra features can be added: pay to play, rent ad space in game, swap assets.

Early Access: Get first-hand access to new games, levels, and special events.

In-Game Advantages: Use tokens to purchase unique in-game items, power-ups, and customization options.

Community Driven: Be part of a growing community where players have a say in game development.

Secure Transactions: Powered by blockchain technology, ensuring safe and transparent in-game purchases.

Earn While You Play: The more you play, the more FLAs you earn, creating a rewarding gaming experience.

Ecosystem

The FLA token aims to revitalise and monetize various online digital experiences using the FLA growth fund across several categories:

Casual Games: FLA token will monetize millions of flash games that have been created over the decades.

Advertisements: Utilising flash technology, engaging ad campaigns that incorporate motion can be funded with FLA tokens, with a validator mechanism ensuring adherence to ad policies.

Storytelling: Flash technology enables the creation of animations and movies in efficient SWF format, with FLA tokens supporting high-quality animated content.

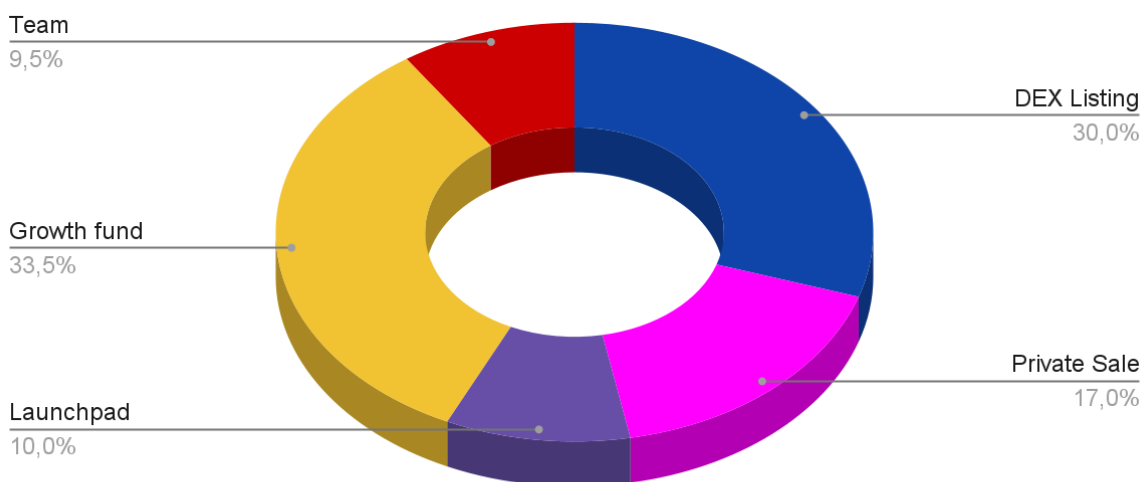

Applications: Flash technology, with Harman AIR integration, allows for the creation of applications that utilise FLA tokens for transactions.

Metaverse: Creators can develop VR experiences in SWF format supported by FLA tokens, leveraging flash technology for accessible, quality VR content.

Tokenomics

A maximum of 2,100,000,000 FLA tokens has been created.
